## SUMMARY

Ambitious and innovative web developer with over 2 years of experience designing and delivering fully functional websites for 3+ clients through referrals. Skilled in Python, HTML, CSS, and C, with expertise in frameworks like Bootstrap and SASS. Recognized as both a key team contributor and a proactive leader, driving collaboration and ensuring high-quality results that exceed client expectations.

## SKILLS

**Programming languages:** Python, C, HTML, Java, CSS, JavaScript, PHP, React  
**Frameworks & Tools:** Bootstrap, SASS  
**Technical Skills:** Git, Git Hub, Version control, Testing and Debugging, OOP programming, Notion Labs, Slack, Monday  
**Soft Skills:** Communication, Customer Service, Leadership, Problem-Solving, Creativity, Collaboration, Adaptability, Time Management  
**Language:** Fluent in French and English

## EDUCATION

**Bachelor of Software Engineering, Co-op Option, Carleton University, Ottawa, ON** **Graduation – April 2028**

- Second year, 9.42/12 (B+)
- 2023 President’s scholarship

## PROFESSIONAL EXPERIENCE

**Web Associate, The Baldwin Institue, New York, United States** **Nov 2024 – Present**

- Maintained and updated website content, improving functionality and user experience through React enhancements, and design adjustments.
- Collaborated with internal teams to align website content with organizational goals, resolving performance issues and supporting event registration integration.
- Developed branding-aligned layouts and accessible designs, utilizing React and GitHub for efficient version control, development, and team collaboration.

**Web Project Manager, Dav&lv Design, Canada, Ontario** **Dec 2022 – Present**

- Designed 10+ websites using Shopify and Wix, meeting client requirements and enhancing their online presence.
- Utilized HTML and CSS to improve design flexibility and functionality, ensuring professional results.
- Collaborated with clients on diverse projects, integrating feedback for successful outcomes and long-term relationships.
- Provided exceptional customer service through responsive support, fostering repeat business and generating 3 new clients through referrals.

**Club Stim member, Lycée Français Georges Pompidou, United Arab Emirates, Dubai** **Sep 2021 – June 2022**

- Taught 20+ Grade 6 students to code websites using HTML & CSS, tailoring lessons to feedback.
- Managed the club by scheduling classes and fostering collaboration in a supportive environment.
- Increased participation by 90% by encouraging open communication and adapting to students’ needs effectively.

## PROJECTS

**David’s Portfolio, Personal Project** **Dec 2024 – Present**

- Translated Figma designs into functional websites using HTML, CSS, SASS, and Bootstrap, aligning with the original vision.
- Applied responsive design principles for optimal viewing across devices and screen sizes.
- Utilized SCSS for efficient and modular styling, streamlining code management and enhancing scalability.
- Leveraged Git and GitHub for version control, maintaining an organized workflow and efficient collaboration.

**Text-Based Social Media Application in C, University project** **Nov 2024**

- Developed a text-based social media app in C with features like user registration, profile management, and post handling.
- Utilized linked lists and stack-based systems to efficiently manage users, friends, and posts.
- Applied programming concepts like structures, memory allocation, and input validation for robust functionality.

**Sortify, University project** **February 2024**

- Led a team of 4 to develop Sortify, a Python-based data analysis tool with sorting, curve fitting, and histogram features.
- Organized and facilitated meetings, ensuring team alignment and resolving scheduling conflicts.
- Designed and implemented the Batch UI feature and contributed to project documentation, enhancing usability.
- Maintained team motivation and monitored project progress to ensure timely delivery.
